

AMENDED VERSION

IN THE CLAIMS:

Sub E1
D1
1. (Amended) A single, disposable apparatus for collecting, disposing, and measuring liquids, comprising:

a bed pan vessel including a seating surface and an inner surface;

and

absorption means fixedly attached to and disposed on all of said inner surface of said vessel for absorbing and collecting liquids within said vessel, wherein said vessel and said absorption means form a disposable single-unit apparatus.

Sub E1
D2
22. (Amended) A disposable, single-unit bed pan vessel including a seating surface and an inner chamber; and absorption means fixedly secured and disposed entirely within said inner chamber for absorbing liquids.
